

There is high demand for coordination and collaboration in the pre-construction / construction / commissioning and handover in vertical building construction. Join us on **April 25, 2017** at the new **Autodesk offices in Bakery Square** in Pittsburgh, PA as we discuss the Future of Making Things and the ERA of Connection with more mobility in the field!

Featuring:

- **Autodesk BIM 360**
- **Autodesk AEC Industry Collection**

During this complimentary presentation, we'll review how BIM 360 Services Integrate within the Building Project Lifecycle and help you to more effectively collaborate in the field.

The event is FREE, but seating is limited, so Register Now!
